

SKIN CLINIC

Mullumbimby Comprehensive Health Centre now has an exclusive Skin Service, including digital mole monitoring, early skin cancer detection and all skin cancer treatment and surgery offered within the same clinic. We also offer management of skin conditions including acne, psoriasis, eczema, rosacea and all other rashes. We have a highly trained and accredited Skin Cancer Practitioner and General Practitioners that offer comprehensive skin checks, utilising digital mole monitoring technology, facilitating early diagnosis.

DR MICHAEL STAPELBERG, ACCREDITED SKIN CANCER DOCTOR & GP

BSc Hons I Anatomy (QLD), MBBS, PhD Dermatology (SYD), Dip Prac Dermatology (CARDIFF), FRACGP, ACCSCMS, ACCD (Skin Cancer College Australasia). Michael is an accredited skin cancer and general practitioner, focusing on the diagnosis and management of skin cancer and general practice dermatology. With extensive training in skin cancer medicine and dermatology, Michael is passionate about supporting skin health.

DR ANNETTE BEISENHERZ, GP

Annette is a trained Skin Cancer and General Practitioner. Her focus is on skin cancer screening, and skin cancer prevention advice. Annette uses dermoscopy in skin cancer detection, as well as digital mole monitoring as needed. She has undergone Skin Cancer training with Health Cert, including a Professional Diploma in Dermoscopy, which is recognised by the International Dermoscopy Society, the Skin Cancer Institute and accredited by RACGP. She has performed skin cancer screening throughout NSW and has over 20 years experience as a GP with skin cancer interest.

DR DUNSTAN THOMPSON, GP

Dunstan is a Member and Fellow of The Royal College of General Practice in the UK and in Australia respectively and is also a Member of The Australian Skin Cancer College. With a special interest in skin cancer diagnosis and treatment, he is experienced in skin grafts and flaps and has worked with a plastic surgeon for 10 years. He is committed to ongoing education in skin cancer diagnosis and treatment through the Australian Skin Cancer College. He is very thorough and is an excellent diagnostician and surgeon. He makes personal phone calls for results of suspicious lesions and discusses cases with colleagues, Pathologists and Dermatologists.
